

Load Diagram - 24 ft Simply Supported Beam

Shear Force Diagram - 24 ft Simply Supported Beam

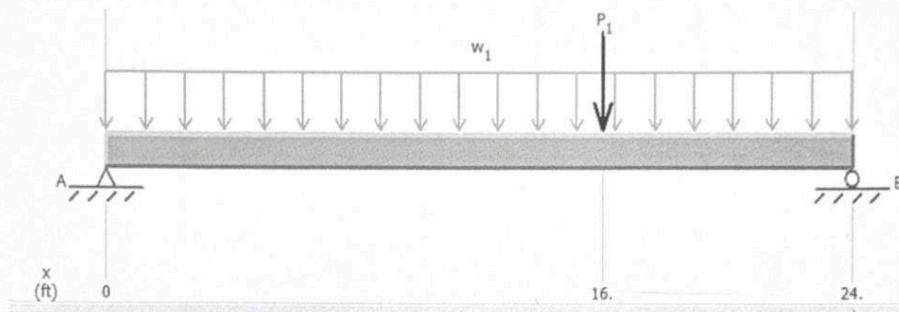

Moment Diagram - 24 ft Simply Supported Beam

Name: Connor Gilbar Date: 2/14/26 Period: E

Quiz B

1. Find the reaction loads, shear diagram and moment diagram for the following beam. The uniform load is 100 plf and the point load is 600 pounds.

$$F_{y,A1} = F_{y,B1} = 1200$$

$$F_{y,A2} = 400 \quad F_{y,B2} = 200$$

$$F_{y,A} = 1600 \quad F_{y,B} = 1400$$
