

👍 **GOOD: THE ARBORETUM OF SOUTH BARRINGTON**

👍 **GOOD: MORaine HILLS STATE PARK**

BAD: EASTWAY PARK BOAT LAUNCH 🙄

BAD: 547 NEWPORT CT - CATTAILS 🙄

EVALUATING LANDSCAPING DESIGNS

*A Comparative
Presentation on the
Best and Worst*

by Conner Glover

Good: Moraine Hills - McHenry, IL

At this 2300-square-foot state park, plants are curated to attract specific species. The diverse habitats support an abundance of plants and a great variety of wildlife to enjoy along ten-plus miles of trails. The landscaping done here provides excellent scenery for your hikes, bike rides, river trips, and more.

Good: The Arboretum of South Barrington

The Arboretum of South Barrington is an outdoor shopping mall known for its high-end experience. The open-air center is named for the lush treescapes and gardens of its landscape and for the large tree farm that formerly stood on the site.

Bad: Eastway Park - Island Lake, IL

Eastway Park serves as the primary boat launch for Island Lake. The landscaping of the park is poor. The grass is cut extremely short and is mostly dead. The park requires you to drive through the grass to launch your boat.

Bad: 547 Newport Ct Island Lake, IL

Every day I drive past this area. It has these ugly cattails and has never once been cleaned. It is a breeding ground for pests and bacteria. When I was little, I would take walks to Walgreens for food. I would frequently be “attacked” (how I remember it) by bugs when passing by this area. Yet the city refuses to do anything about it.

R/W/L

- Right

- Accurately finished the project according to the guidelines.
- Found locations that are relevant to my life and close to my home.
- Provided descriptions of the good and bad parts of the various areas.
- Only used artificial intelligence when generating cover slides and avoided it anywhere else.

- Wrong

- Provided the assignment late.
- Use the same town for both of the bad ones.
- Used historical pictures from a year with a drought to make the bad ones look worse.
- AI image generator made inaccurate images.

- Learned

- It's harder than I thought to think of locations with good/bad landscaping.
- Turn things in on time.
